

Muhammad Hassan Khan

Senior Product Designer

Senior Product Designer with 5+ years shipping SaaS and mobile products end to end — research through developer handoff. Currently Senior Product Designer at AST, focused on healthcare: EMR compliance workflows and AI agent design for clinical products, built with Claude Code as a real part of the process — planned, built in small verified steps, and shipped, not just specced.

Work Experience

AST | Senior Product Designer

Jun 2026 – Present

Own product design for healthcare solutions — EMR workflows and AI agent design for clinical products — from research through developer handoff. Designed a healthcare EMR's billing and claims data model and an 8-screen compliance flow enforcing clinical documentation standards, reusing and extending the product's existing design system rather than introducing one-off patterns. Designed an AI intake agent's conversational flow for a clinical EMR, extending it to handle real edge cases (e.g. an unnamed patient) by reusing the product's own interaction patterns — additive only, nothing already shipped was touched. Established an AI-assisted design-to-ship workflow for healthcare product work — Claude Code for Figma automation and interactive prototyping — cutting the time from design decision to a working, verified flow.

Tafsol Technologies | Sr. UI/UX Designer

2023 – Jun 2026

Led UI/UX strategy for SaaS platforms (LMS, ERP, CRM, dashboards), improving usability and workflow efficiency. Managed end-to-end design lifecycle — user research, wireframes, prototypes, design systems, developer handoff — within Agile teams. Mentored junior designers.

Legendeski | Sr. UI/UX Designer

2022 – 2023

Designed high-converting landing pages and contributed to an internal SaaS sales portal, enhancing engagement and operational efficiency. Delivered wireframes, interactive prototypes, and high-fidelity UI with seamless design-to-development handoff.

Fossphorus | Executive UI/UX Designer

Feb 2022 – Aug 2022

Led responsive web design projects from concept to deployment, translating client requirements into structured, user-friendly interfaces. Collaborated with cross-functional teams to ensure usability, visual consistency, and on-time delivery.

TRC | Jr. Graphics & Web Designer

2021 – 2022

Created social media creatives and assisted in end-to-end website design, strengthening brand presence and UI consistency. Built foundational expertise in branding, typography, and responsive web design principles.

Education

BS Mass Communication (Media Sciences)

at University of Karachi

Completed: Dec 2025 | Karachi
