Muhammad Hassan Khan

Senior Product Designer

Senior Product Designer with 5+ years shipping SaaS and mobile products end to end, from research to production. I work in rule-heavy, high-stakes domains (healthcare compliance, AI copilots and agent workflows, dense business software) for teams in the US, the Gulf and Pakistan, and I own what ships.

Work Experience

AST | Senior Product Designer

`Jun 2026 – Present`

Own product design for a US therapy documentation platform: Medicare compliance workflows, clinician tools and the design system behind them, from research through developer handoff. Designed the billing and claims data model and an 8-screen compliance flow that enforces clinical documentation standards, extending the existing design system rather than adding one-off patterns. Designed an AI intake agent's conversational flow to handle real edge cases (for example, a patient not named up front), reusing the product's own interaction patterns without changing shipped work. Set up a design-to-ship workflow, interactive prototypes and automated design-file updates, that shortens the path from a design decision to a working, verified flow.

Tafsol Technologies | Sr. UI/UX Designer

`2023 – Jun 2026`

Led UI/UX strategy for SaaS platforms (LMS, ERP, CRM, dashboards), improving usability and workflow efficiency. Managed end-to-end design lifecycle — user research, wireframes, prototypes, design systems, developer handoff — within Agile teams. Mentored junior designers.

Legendesk | Sr. UI/UX Designer

`2022 – 2023`

Designed high-converting landing pages and contributed to an internal SaaS sales portal, enhancing engagement and operational efficiency. Delivered wireframes, interactive prototypes, and high-fidelity UI with seamless design-to-development handoff.

Fossphorus | Executive UI/UX Designer

`Feb 2022 – Aug 2022`

Led responsive web design projects from concept to deployment, translating client requirements into structured, user-friendly interfaces. Collaborated with cross-functional teams to ensure usability, visual consistency, and on-time delivery.

TRC | Jr. Graphics & Web Designer

`2021 – 2022`

Created social media creatives and assisted in end-to-end website design, strengthening brand presence and UI consistency. Built foundational expertise in branding, typography, and responsive web design principles.

Education

BS Mass Communication (Media Sciences)

at University of Karachi

`Completed: Dec 2025 | Karachi`
